SENIOR PRODUCT DESIGNER

full time | Schorndorf, near Stuttgart

Are you a creative mind who thinks out of the box and is eager for a new challenge?

At DQBD we look beyond ordinary design solutions, closely examining the aesthetics, the engineering, construction and material development of a product.

Together with our highly inspired, international team, you will create innovative design concepts in the fields of sports design, personal protection, apparel and textile design, reflecting our customers' specific brand identities.

You should have a degree in product or industrial design and should be able to create fast, competent drawings, sketch and visualize concepts and design ideas, be skilled in using Photoshop, Illustrator, InDesign and, above all, contribute new ideas and approaches and realize these in CAD.

If you are interested and share our idea of work and design, please send your CV and a PDF portfolio to: info@dqbd.de

We look forward to having you on our team here at DQBD!
ARE YOU READY?
